

The screenshot shows the Yenta interface with a navigation bar at the top containing 'news', 'messages', 'interests', 'attestations', 'requests', 'tune', and 'help'. The 'interests' section is active, displaying a table of current interests. To the left of the table are icons for 'add', 'delete', and 'reorder' with a red letter 'a' below them, and a note that says '[No bookmarks defined.]'. Below the table, there is a text block stating 'I know about 264 documents that I have not put into any of these interests. I am not currently working on these.' followed by a checkbox for 'Start finding interests.' and a 'Make changes' button.

Title	Some related words	Size	Contacts	Relevant?
tea-lovers	tea mit messag interest blend	21	1	<input checked="" type="checkbox"/>

I know about 264 documents that I have not put into any of these interests. I am not currently working on these.

Start finding interests.

Figure 6: A sampling of interests. Real users tend to have many more than shown here.

The screenshot shows the Yenta interface with the 'messages' section active. The navigation bar at the top is the same as in Figure 6. The 'Recent messages' section displays a single message: '• "A new tea I just found", by forget. "It's like Oolong #6,..."' with a blue link. Below the message, there are two options: 'Compose a new message to a cluster.' and 'Block an annoying Yenta.' To the left of the messages are the same 'add', 'delete', and 'reorder' icons with the red letter 'a' and the '[No bookmarks defined.]' note.

Recent messages

- ["A new tea I just found", by forget. "It's like Oolong #6,..."](#)

Compose a [new message](#) to a cluster.

[Block](#) an annoying Yenta.
